Investment Philosophy

LM Capital Group's investment philosophy, which has not changed since the firm's inception in 1989, is centered on the belief that money is a commodity whose price, or interest rate, is governed by the laws of supply and demand, and that global economic, political, and social factors significantly influence this equation.

Investment Process

LM Capital specializes in active fixed income management using a top-down, macroeconomic approach supported by in-depth, bottom-up research.

We use a long-term investment perspective based on analysis with a proprietary economic Matrix and Trend Identification Score that helps determine duration positioning and sector allocations. It also includes Global Scenario Planning to help protect portfolios from extreme market fluctuations. Our process results in a diversified portfolio representing the most attractive opportunities, while not focusing on benchmark tracking.
