Investment Philosophy

LM Capital Group's investment philosophy, which has not changed since the firm's inception in 1989, is centered on the belief that money is a commodity whose price, or interest rate, is governed by the laws of supply and demand, and that global economic, political, and social factors significantly influence this equation.

Investment Process

LM Capital specializes in active fixed income management using a top-down, macroeconomic approach supported by in-depth, bottom-up research.

We use a long-term investment perspective based on analysis with a proprietary economic Matrix and Trend Identification Score that helps determine duration positioning and sector allocations. It also includes Global Scenario Planning to help protect portfolios from extreme market fluctuations. Our process results in a diversified portfolio representing the most attractive opportunities, while not focusing on benchmark tracking.

LM Capital Group, LLC's Active Core Plus Composite Contains fully discretionary fixed income accounts based in US Dollars and for comparison purposes is measured against the Bloomberg's US Aggregate Index. The Active Core Plus fixed income portfolios are comprised of Treasuries, agencies, investment-grade corporate issues, mortgage-backed securities, US high yield, US Dollar denominated Emerging Market Debt and non-US Dollar denominated issues. The portfolios in the composite allow inclusive exposure to "plus" sector securities such as EMD, non-USD and US High Yield. The firm does not utilize any private label CMO's, CDO's, CBO's or structured investment vehicles in the management of its portfolios. Returns may include the effect of foreign currency exchange rates. The Active Core Plus inception date is January 1, 2009. Minimum account size for this composite is \$10 million.

LM Capital Group is an Independent Registered Investment Adviser. LM Capital Group claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LM Capital Group has been independently verified for the periods January 1, 1997 through March 31, 2026. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards.

Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Active Core Plus Composite has had a performance examination for the periods January 1, 2009 through March 31, 2026.

The verification and performance examination reports are available upon request. The Active Core Plus Composite was created on January 1, 2009. The firm maintains a complete list and descriptions of composites, which is available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Policies for valuing investments, calculating performance and preparing GIPS Reports are available upon request.

Past performance is not indicative of future results. The US Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fees performance is calculated using actual fees. Actual performance returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account.

The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite for the entire year.

Fees for the Active Core Plus Strategy typically range from 10 to 30 bps depending on the size of AUM and client specific Investment Guidelines. Client fees may vary from these amounts. These fees are subject to negotiation. Additional information related to fees are included in the firm's ADV Part 2.

Three-year annualized ex-post standard deviation of the composite and annual composite dispersion are calculated using gross of fees returns.
